

Now you can enjoy a family reunion by Long Distance

It's welcome news to many families scattered by the miles that they can now enjoy a reunion—one and all—by *Long Distance*.

Conference Telephone Service makes it possible for as many as six telephones (more by special arrangement), any distance apart, to be connected on one call. Everyone can

hear and be heard by everyone else. Voices are just as warm and clear as if you were all in the same room. And rates are low.

A Conference Call between New York City, Cleveland and Washington, D. C., for example, costs only \$2.30 for the first three minutes and only 45¢ for each additional

minute. (This is the rate after 6 o'clock every night and all day Sunday. It does not include the 10% federal excise tax.)

Why not try a telephone reunion on your next anniversary or other special day? Just tell the operator you want to make a Conference Call.
