HAND TELEPHONE SETS — 213E

MAGNETO — CONNECTIONS

1.00 INTRODUCTION

This section covers the combination of apparatus, circuit diagram, and connections for the 213-type hand telephone sets for magneto service.

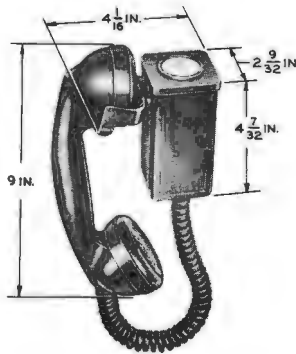

FIG. 1—213 TYPE

TABLE A—COMBINATION OF APPARATUS

Hand Tel. Set Code	Components			Apparatus Blank	Note
	Handset	Handset Mounting	Handset Cord		
213E-3E	E1E-3	G3-3	H3	—	1, 2
213E-3F	F1A-3, F1G-3, or F4A-3				

Notes

- Codes listed are for apparatus with black finish. For apparatus finished in other colors, the dash number (—3) is changed to the code number for the particular color.
- When the handset is equipped with spring cord, the suffix R will be added to the set code. For example, a 213E-3F becomes a 213ER-3F.

2.00 GENERAL

- 2.01 The 213E hand telephone set may be used in combination with any of the subscriber sets shown in Table B.
- 2.02 Hand telephone sets equipped with E-type handsets may be used when their use does not conflict with transmission zoning requirements.
- 2.03 To obtain complete information on connection of station apparatus, the circuit diagram herein should be matched with the circuit diagrams in the section covering the connections for the appropriate subscriber set.
