

NUMERICAL INDEX — DIVISION 169

RECTIFIERS AND FILAMENT SUPPLIES

1. GENERAL

1.01 This section provides an index of System-issued sections in Division 169.

1.02 This section reverted to Issue 1 in February 1975. Prior to that date there had been 99 issues of the section.

1.03 A bullet (●) indicates an item that has been added or changed since the previous issue of the index.

1.04 A square (□) indicates a canceled item. Information relating to the cancellation, if necessary, will be shown in a note following the item. Canceled items and related notes will be deleted upon reissue of the index.

1.05 A spade (♠) indicates an item not on microfiche. This index indicates the latest issue for hard-copy BSPs. In some cases, the microfiche BSP will reflect the next higher issue as a result of the reduced distribution interval.

1.06 "Add" is the abbreviation for Addendum.

2. LAYERS

2.01 This division is arranged in layers as follows:

169-0 Index and Equipment Test Lists

-2 Rectifiers — Located on Customer or Telephone Company Premises

-4 Rectifiers — Located on Customer Premises

-6 Rectifiers and Filament Supplies — Located on Telephone Company Premises
