

STATION SETS

SELECTION FOR SPECIFIC USE

1.00 INTRODUCTION

This section covers the selection of station sets for specific and/or special use.

- A specific or special use may involve a function of the station set, a specific type or style of mounting, or the location of the station set.

2.00 GENERAL

2.01 The information contained in the tables does not include class of service or transmission zoning requirements. This information may be found in detail in the sections covering the specific sets.

2.02 Equipment for use where inductive noise is encountered is covered in the C Section on inductive noise.

2.03 Refrigerating and freezing rooms do not require special sets, but do require special treatment of sets as covered in a separate C Section.

3.00 THE FOLLOWING TABLES ARE INCLUDED IN THIS SECTION

Table A—Selection of Sets for Special Use

Table B—Selection of Sets in Color

Table C—Sets in Color—Group and Code Numbers

4.00 SELECTION OF COLORED SETS

4.01 The color or color group number may be obtained from Table B.

4.02 Color and code numbers may be obtained by using the group number listed in Table B and referring to Table C.

54	Brown		
55	Beige		
56	Yellow		
57	Blue		

Notes

1. Handset and mounting cords on full color sets are provided in colors which match or harmonize with the color of the housing.
2. Two-tone color sets are provided with a colored housing, clear plastic plungers, black dial, and black handsets.
3. Manual sets have colored thermoplastic apparatus blanks.
4. Add a suffix letter A to color code for appropriate two-tone. Two-tone is available in most sets listed in group 1.
