

STATION DIALS
9-TYPE
IDENTIFICATION AND MAINTENANCE

1. GENERAL

- 1.001** This addendum supplements Section 501-162-101, Issue 5.
- 1.002** This addendum is issued to add information on Low Torque Dials for the handicapped.

1.02 A low torque dial is available for use by handicapped persons. The dial is the same as the standard 9-type dial except the motor spring pretensions have been reduced to provide minimal torque. It may be obtained by adding "Low Torque Dial" to the ordering information for the standard 9-type dial.

The following change applies to Part 1 of this section:

- (a) 1.02--added
