

# THE STEP BY STEP DIAL SWITCHING SYSTEM

## Table of Contents

- I. Introduction.
- II. Types of Switches (Functional).
- III. Connector Functions.
- IV. Line Finder Functions.
- V. Operation of a Switch.
- VI. Step-By-Step Relay.
- VII. The Connector (Operational).
- VIII. The Selector (Operational).
- IX. The Line Circuit and Line Finder Group (Operational).
- X. Customer Line Cross Connections.
- XI. Trunking.
- XII. Inter-Office Trunk Repeaters.
- XIII. Circuit Representation.
- XIV. Operational Sketches and Sequence Charts for the Selector.
- XV. Operational Sketches and Sequence Charts for the Connector Circuit.

September - 1952.

Lesson No. 1

FUNDAMENTALS OF TELEPHONY

Section 1

Principles of Telephone Switching

	<u>CONTENTS</u>	<u>Page</u>
Function of a Telephone Switching System		3
Subscriber Line		3
Trunk		3
Requirements of a Telephone Switching System		4
Tandem Office		4
Toll Office		4
Telephone Switching Systems		5
Manual Switching System		5
Dial Switching Systems		5
Direct Dial Control Switching System		5
Common Control Switching System		6

Western Electric Company, Inc.  
Central Regional Services  
Engineering Personnel Development

Section 7

CENTRAL OFFICE POWER PLANT

<u>CONTENTS</u>	<u>Page</u>
The Central Office Power Plant - Source, Control and Distribution	46
200 Ampere Metallic Rectifier Charging Unit	47
Simplified Schematic of Fully Automatic Charging Equipment	48
General View of Power Room	49
Charging Generator Units	50
Meter and Control Panel - Field Rheostat	52
Circuit Breaker and Automatic Reverse-Current Switch	53
Front View of Power Board	54
Emergency Cell Switches	56
Power Board - Main Control and Battery Control Boards	58
Voltage Controller and Control Relay	59
Power Cabling	61
Central Office Battery - Lead-Acid Type	65
Engine Starting Batteries	68
CEMF Cells	69
Talking Battery Filters - Common and Decentralized	71
Ringin Power Plant - 803C Type	74
Ringin Machines	78
Mercury Interrupter Unit	81
Tone Alternator	82
Schematic of Ringin Machine Connections	83
Tripping Battery Equipment	84
Superimposed Ringin	85
Ringin Power Plant - 804C Type	87
