## **VOLUNTEER-FIRE-CALL**

**"gets them on the job quicker"**

The installation of a Kellogg ten-line fire reporting system in Star City and another in Buffalo, Indiana central offices, has led Mr. Otho Price, Fire Chief at Buffalo, to report, "*We get more of our firemen on each call, and we get them on the job quicker with the new dial fire alarm system . . .*"

This is typical of community results with the Kellogg Volunteer Fire Call System. Also, it's easily installed. To quote Mr. James D. O'Connor, manager of The Pulaski-White Rural Telephone Co-Operative, Inc., "*Since this system uses the regular subscriber phone, we need not install extra phones or occupy needed cable pairs with fire lines . . . it is the answer to the problem facing small communities in regard to fire reporting after conversion to dial.*"

*Your Kellogg sales representative will be glad to explain the many advantages of this system for your community.*
