CONFERENCE SERVICE

Dictation Service

SERVICES THAT ADD PLUS VALUES TO YOUR BUSINESS COMMUNICATIONS

CODE CALLING SERVICE

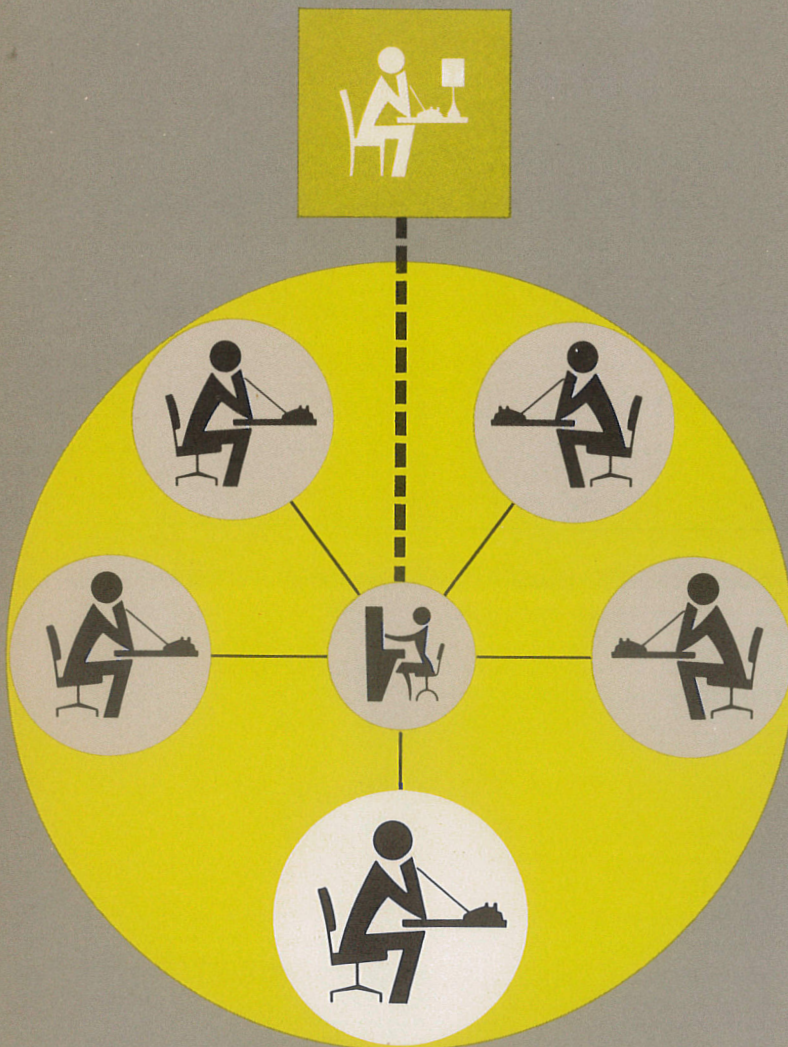

AFTER-HOURS SERVICE (DIAL)

CONFERENCE CALLS— MANUALLY ARRANGED

Attendant quickly arranges conference calls over your regular telephone with up to four of your people and one "outsider."

- ☐ Details are less likely to "get lost in translation" when everyone concerned hears them at the same time.
- ☐ Decisions are made faster and with greater accuracy.
- ☐ Hear everyone's comments to a proposal or problem.
- ☐ Reduces time-consuming meetings away from your business.

CONFERENCE CALLS— DIAL-ARRANGED

Hold internal conferences on regular telephones with up to 10 people in your organization.

- ☐ Your people remain at their desks; have data nearby for easy reference.
- ☐ Save walk-to-talk delays; matters are resolved efficiently.
- ☐ Decisions are made faster and with greater accuracy.
- ☐ Save time by dialing yourself, avoiding attendant-handling.

TELEPHONE DICTATION

Use your regular telephone to dictate to a central point—one-digit dialing controls START, STOP, CORRECTION and PLAY-BACK.

- ☐ Everyone has access to the service.
- ☐ Consolidated dictation service is convenient and economical.
- ☐ Stenographic personnel spend less time away from their desks.
- ☐ You are able to use your dictating equipment more effectively.

CODE CALL SIGNALING

Use your regular telephone to dial a code signal, and locate personnel away from their telephones.

- ☐ Dial a code to activate your signaling equipment.
- ☐ Up to 125 individual codes are available.
- ☐ On calls from outside your organization your attendant dials an individual's code.
- ☐ Callers inside your organization dial an individual's code from any telephone.
- ☐ Personnel are free to leave their desks without missing calls, messages.
- ☐ The individual called can answer from the nearest phone.

AFTER-HOURS SERVICE — DIAL TYPE

Assures efficient, economical answering and handling of incoming calls during hours when your switchboard is unattended.

- ☐ Gives you complete after-hour telephone coverage from one button type telephone.
- ☐ All incoming calls are promptly answered and handled by your regular after-hours employee.
- ☐ Calls can be transferred to any telephone.
- ☐ All employees working after-hours can have the assurance that calls will reach them quickly over their regular telephones.
- ☐ Number of circuits needed are engineered to your needs.
