Statewide Mobiletelephone Service

PACIFIC  BELL SM

A Pacific Telesis Group Company

What could be better than a phone that goes everywhere?

Something better: A phone that works everywhere.

When you're on the move, your office can move right with you—thanks to the mobile phone service that covers almost all of California—Statewide Mobiletelephone Service. (Formerly Improved Mobile Telephone Service.)

Your service area: Greater California.

Pacific Bell's mobile telephone area extends to more places than any other mobile service. To all major California cities and towns. To regions other services just can't go—so your calls can't go either.

They can phone you in Ventura, reach you in Vallejo.

Plus, the automatic Follow Me feature relays calls to you all across the state, not just in one local zone. Wherever you are in the Statewide Mobiletelephone Service area, Follow Me tracks you down.

Call Waiting alerts you—and more.

When a call's waiting on your line, Pacific Bell's mobile phone service doesn't only signal you. It locks the call right into your channel—and puts it through once your current call ends. No more missing a waiting call because all channels are busy.

Direct dialing to any phone anywhere.

Call from within California, and you dial direct. No extra steps. No operator delays. You dial around the country, direct around the world, even 911 for emergencies.

So get mobile phone service that goes where you go: Statewide Mobiletelephone Service. Get the details from Pacific Bell.
