

AIR RAID WARNING SYSTEM—The Bell System is providing nationwide communication facilities for defense at the request of military authorities. The photograph shows aircraft movements being mapped in a Civilian Defense "filter" center, as reports from strategic observation posts are received by telephone.

The Telephone Is a Vital Link in Civilian Defense

The Nation's air raid warning system is just one of many ways in which the Bell System is spending millions of dollars to help make this country strong and safe. Civilian Defense is based on quick communications and the telephone is a vital, indispensable link in it.

Defense is our No. 1 job and we are giving it first call on new construction and facilities. We know you would want it that way.
