Cut down network troubles with

comas III

COMPUTER MAINTENANCE & ADMINISTRATION SUPPORT

A new trouble shooter for your crossbar tandem offices.

UNIQUENESS
Mechanized automatic trouble analysis

TECHNOLOGY
Minicomputer

ADVANTAGES
Increases office efficiency
Maximizes maintenance impact

CAPACITY
Marker group equipped with a trouble recorder frame

COMAS III is an on-site, stand-alone minicomputer system. It collects trouble data from existing trouble recorder circuits. Performs analysis. Formats the data. And shoots out hard-copy exception reports pinpointing defective equipment or combinations of equipment.

COMAS III increases your office's efficiency by:

☐ Reducing ineffective attempt rate
☐ Minimizing misdirected calls
