

AMPHENOL * TELE-PIERCE+ 356-246 TERMINATION TOOL

DESCRIPTION AND OPERATION

1. GENERAL

1.01 This section is a cover sheet for the Amphenol Tele-Pierce 356/246 Termination Tool. GAEL 1545-1 authorizes the use of this tool in Pacific Company.

1.02 (Reserved for future use)

1.03 The attached instruction provides descriptive and operating information for the Amphenol Termination Tool.

1.04 The termination tool is designed to permit field installation of 25-pair connectors on "D" inside wiring cable. The connectors to be used with this tool are manufactured by Amphenol, but are compatible with the KS-16689, L3 plug and the KS-16690, L1 connector now in use.

1.05 If corrections are required in the manufacturer's instructions, use Form E 3973-1PT as described in Section 000-010-901PT to process the correct information.

1.06 If equipment design and/or manufacturing problems should occur, refer to Section 010-700-010PT for procedures on how to file an Engineering Complaint.

1.07 When revised instructions reflect changes due to modification of equipment, retain the superseded information until the equipment is modified.

2. MAINTENANCE

2.01 The Amphenol Termination Tool is warranted for one year from date of purchase by Amphenol.

2.02 Minor repairs, such as replacing combs or cutter bars, may be made in the field. For major repairs the tool should be returned to:

Amphenol Sales Division
465 S. Mathilda Avenue
Sunnyvale, CA 94086

3. ORDERING

3.01 To obtain this tool, contact your Division Tool Coordinator who will order the tool for you.
