

INSULATED SCREW EYE

1. GENERAL

1.01 Insulated screw eyes (Fig. 1) are used as intermediate supports of drop wires on frame structures when porcelain insulated building attachments are required.

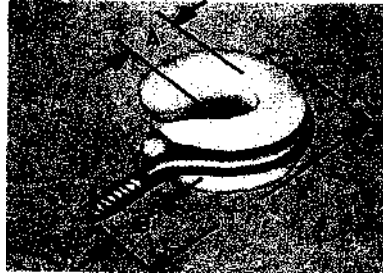

Fig. 1 — Insulated Screw Eye

1.02 The screw eyes consist of a slotted porcelain ring attached to a galvanized steel screw eye and are available in two sizes and types.

1.03 Table A lists type, size, and dimensions for screw eyes.

TABLE A

Type	Size (A)	Length of Screw (B)	Length of Screw Eye (C)
	Inch	Inch	Inch
S	5/8	5/8	2-5/8
L	5/8	1-1/4	3-5/8
S	1	3/4	3-3/4
L	1	1-3/8	4-3/4
