

TELEPHONE SETS—564HK

CONNECTIONS

1. GENERAL

- 1.01** This section contains connection information on the 564HK telephone set when used with 1A1, 1A2, or 6A key telephone systems.
- 1.02** This section is reissued to show current switchhook lead colors.
- 1.03** The necessary cord conductors are not furnished in the D30C cord to provide exclusion, speakerphone, or 1A service features.
- 1.04** The 564HK telephone set is the rotary dial version of the 1564HK TOUCH-TONE telephone set.
- 1.05** The red and black ringer leads are factory wired to terminals RR and RT. The ringer can be connected with several options.
