OFFICIAL TELETYPEWRITER MESSAGES

Our Company operates a Private Line Official Teletypewriter Service between Los Angeles, San Diego, San Francisco, Portland, Seattle, and O and E and Long Lines Departments of the American Company and headquarters locations of other Associated Companies. Commercial TWX service reaches the majority of points not served by the private line system. These services are available through "LAM," Headquarters Message Center, Room 561, 740 South Olive Street, Los Angeles.

The private line system is provided for official communication to clear commercial toll telephone and TWX facilities for the use of our customers. This service may be used by all employees for Company business when the mails are inadequate and a written record of the communication is desired.

Important ways for increasing the efficiency of our service are:

- 1. Address the message correctly.***
- 2. Keep the text brief as the subject will allow.***
- 3. File messages in sufficient time to allow transmission to destination during hours of service.***

Official Messages should be typed or written legibly on plain paper with the heading "Official Message" and should bear the sender's signature, telephone number and return address.

Between 8:00 A.M. and 5:00 P.M., Monday to Friday, inclusive, written Official Messages of employees not served by Private Line or TWX local stations should be delivered by Company mail or messenger to "LAM" Headquarters Message Center, Room 561, 740 South Olive Street. If mail or messenger is impracticable because of location and/or time requirements, Official Messages may be telephoned to "LAM" together with the sender's telephone number and return address. The "LAM"—"LAG" Center Telephone is MAdison 3-2215.

Messages of emergency or urgent nature will be accepted for transmission beyond regular closing time. However special arrangements must be made with "LAM" Headquarters Message Center sufficiently in advance to permit contact with other Message Centers involved.

NOTE: Messages of a personal nature are not accepted for transmission as "Official Messages."
