

# Sound choice! AT&T Single-Line telephones, for cost-effective service wherever you are.

## Behind your System, in the office, the factory. Analog phones save steps, save time.

### VOICE TERMINAL COMPATIBILITY

The 2500 and 500 Model analog phones offered on these pages are compatible with AT&T Communications Systems: MERLIN System, MERLIN Plus System, MERLIN II System, System 25, 75, 85, and DIMENSION with the exception of the SPIRIT Communications System. For a quick reference to Voice Terminals offered in this catalog, see our Voice Terminal Compatibility Matrix, page 3. See the Small System Comparison Guide, page 29, to note your System's specific capabilities: line capacity, station capacity, more.

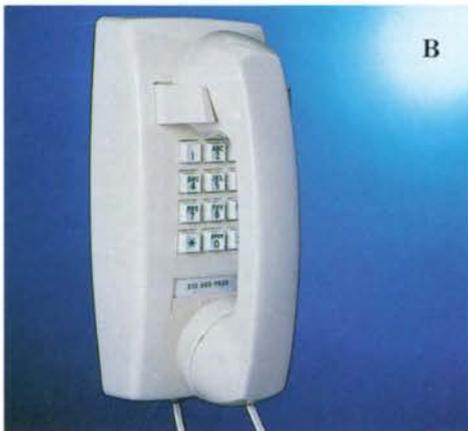

*AT&T 2500 Model Single Line phones: call them affordable, reliable.*

### A. 2500 Model Touch-Tone Desk Telephone.

This easy-to-use single line phone is a sturdy, reliable performer with the added convenience of Touch-Tone dialing. Ideal wherever a simple dial-up call is needed: the office, front desk, mail room. Hearing aid compatible. Limitation: Not compatible with a speakerphone.

- #3100-1TDB (Black) .....\$55.00
- #3100-1TDI (Ivory) .....\$55.00
- AT&T Installation (optional) .....\$12.00

*The 2500 Model Touch-Tone Wall Telephone. Always within easy reach.*

### B. 2500 Model Touch-Tone Wall Telephone.

Arrives ready to mount on a wall. Other specifications/limitations remain the same as for the 2500 Model Desk Set.

- #3100-TWRB (Black) .....\$60.00
- #3100-TWRI (Ivory) .....\$60.00
- AT&T Installation (optional) .....\$12.00

*The Touch-Tone Desk phone with Message Waiting Light: a hotel/motel favorite, with good reason.*

### Jack-Equipped Touch-Tone Telephone. (Not shown)

A standard Touch-Tone desk set, equipped with a headset jack for quick, cost-effective hookup of equipment. Hearing aid compatible. For compatible headsets, see page 59.

- #3100-TJEB (Black) .....\$150.00
- #3100-TJEI (Ivory) .....\$150.00
- AT&T Installation (optional) .....\$12.00

### C. Touch-Tone Desk Telephone with Message Waiting Light.

For the busy office worker or hotel/motel environment, the addition of a neon Message Waiting Light can be a lifesaver. Ensures that messages are promptly received, and allows the user to respond quickly. A standard Touch-Tone telephone, available as a desk set only. Limitation: Message Waiting is not compatible with Systems 75 or 85. Hearing aid compatible.

- #3100-TMWB (Black) .....\$60.00
- #3100-TMWI (Ivory) .....\$60.00
- AT&T Installation (optional) .....\$12.00

### Speakerphone Compatible Touch-Tone Desk Telephone.

This basic analog set connects quickly and easily to our 4A Speakerphone (#3120-02WB, page 59); no additional equipment required. Ideal in the conference room, data entry area, or on an executive's conference table. Hearing aid compatible.

- #3100-2TDB (Black) .....\$75.00
- #3100-2TDI (Ivory) .....\$75.00
- AT&T Installation (optional) .....\$12.00

*Our high quality standard rotary desk set.*

### D. 500 Model Rotary Desk Telephone.

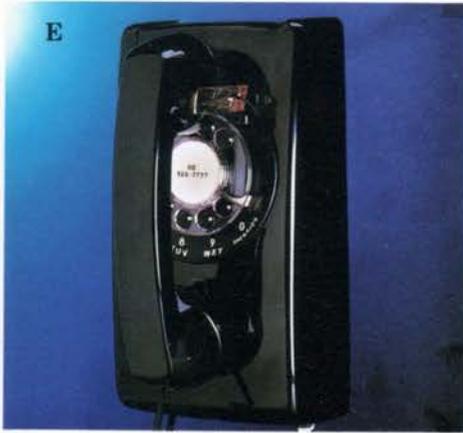

More than a sturdy, basic desk telephone. In the event of power failure, it pays to have at least one of these rotary sets connected to your MERLIN System's power failure port. Hearing aid compatible.

- #3100-ORDB (Black) .....\$45.00
- #3100-ORDI (Ivory) .....\$45.00
- AT&T Installation (optional) .....\$12.00

### E. 500 Model Rotary Wall Telephone.

For service areas, or where space is at a premium, this telephone mounts directly on the wall, within easy view.

- #3100-ORWB (Black) .....\$55.00
- #3100-ORWI (Ivory) .....\$55.00
- AT&T Installation (optional) .....\$12.00

**E**  
The 500 Model Rotary Wall Telephone: when Touch-Tone dialing is not available.

**Jack-Equipped Rotary Desk Telephone.** (Not shown)

Its sturdy, heavy-duty construction is ideal for your factory, warehouse or where Touch-Tone capabilities are not available. Equipped with jack for headsets. Hearing aid compatible. For a selection of compatible headsets, see this page.

- #3100-RJEB (Black) . . . . . \$140.00
- #3100-RJEI (Ivory) . . . . . \$140.00
- AT&T Installation (optional) . . . . . \$12.00

**F. Rotary Desk Telephone with Message Waiting Lamp.**

With the addition of a neon Message Waiting Lamp, this basic phone gains new functionality: telling your hotel/motel guests that an important message has come in. Hearing aid compatible. Limitation: The Message Waiting Lamp will not operate with System 75 or 85.

- #3100-ORMI (Ivory) . . . . . \$55.00
- AT&T Installation (optional) . . . . . \$12.00

**Speakerphone Compatible Rotary Desk Telephone.** (Not shown)

Add a Speakerphone now, or in the future. It will save you the cost of additional equipment. (See 4A Speakerphone #3120-02W below.)

- #3100-2RDB (Black) . . . . . \$65.00
- #3100-2RDI (Ivory) . . . . . \$65.00
- AT&T Installation (optional) . . . . . \$12.00

**F**  
The AT&T Rotary Desk Phone with Message Waiting Lamp: getting the message through.

**Model 4A Speakerphone.** (Not shown)

Known for its superb quality, AT&T's speakerphone delivers a crisp, clear sound, without having to raise your voice. A time-saver, from the private office to the conference room. With volume control.

**Prerequisite:** The Speakerphone Compatible Rotary or Touch-Tone Telephone described to the left is required.

**Note:** When used with DIMENSION MET sets, order item #3120-02WM shown on page 56.

- #3120-02WB (Black) . . . . . \$340.00
- #3120-02WI (Ivory) . . . . . \$340.00

**G**  
Confidencer installs in seconds.

**Very High Noise Confidencer.**

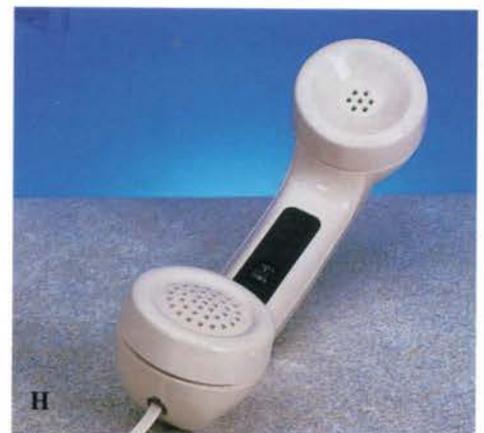

Installs in minutes, substantially reduces loud background noise (construction, factory, etc.) allowing your caller to hear you better. Replaces the standard transmitter used in 2500/500 model standard telephones.

- #31050A + B (Black) . . . . . \$37.00
- #31050A + I (Ivory) . . . . . \$37.00

**G. Confidencer.**

Similar to our Very High Noise Confidencer above, the Confidencer is for areas where moderate noise exists, enough to disrupt a call.

- #31051A + B (Black) . . . . . \$37.00
- #31051A + I (Ivory) . . . . . \$37.00

**H**  
Our amplified handset, invaluable in a noisy area.

**H. Hard of Hearing Handset.**

For specialized needs, this normal-looking handset automatically increases incoming volume, for a more effective call. For use with single-line phones only. Hearing-aid compatible.

- #31011A + B (Black) . . . . . \$40.00
- #31011A + I (Ivory) . . . . . \$40.00

**Supra Over-The-Ear Headset.** (Pictured on page 42.)

For customer-service representatives, data entry operators, receptionists and other busy phone users, a comfortable, lightweight, over-the-ear headset with soft cushion pads. Has a Quick Disconnect feature that allows you to leave your desk without removing the headset. The call will be held automatically, and transmit and receive are activated when the Quick Disconnect is plugged back in. Acoustic voice tube and receiver can be positioned over either ear. Comes with a 10-foot coil cord and has volume control. **Prerequisite:** Jack-equipped telephone or headset adapter.

- #3122-012A . . . . . \$130.00

**Starset II In-The-Ear Headset.**

(Pictured on page 42.) Provides hands-free efficiency and lightweight comfort for those who prefer an In-The-Ear Headset. The Quick Disconnect Feature allows you to leave the desk, without removing the headset. For the perfect acoustic fit, select the most comfortable eartip size from a kit of multiple sizes provided. Includes 10-foot coil cord and volume control. Allows attachment to an eyeglass frame. **Prerequisite:** Jack-equipped telephone or headset adapter.

- #3122-002A . . . . . \$160.00

# Expand Your 1A KEY Telephone System With These Hard-Working Phones

All 1A KEY telephones are refurbished and are covered by AT&T's standard 90-day Warranty.

## A. The 6-Button, 1A KEY Telephones

Suitable for all business environments, the 6 push buttons serve 5 Central Office, PBX, intercom or outside lines, with the 6th button for HOLD. One of the 5 buttons can be designated solely for paging access. Lights indicate ringing, in use, or on-hold status. Compatible with manual or dial intercoms and with larger 1A KEY multi-button sets. Available in 3 colors, desk or wall mount.

### TOUCH-TONE TELEPHONES

Desk Set		Price
10252X	Ivory	\$ 138

## B. The 20-Button Phone

A major addition to your business telephone system. With 20 buttons, you have simultaneous observation of 19 lines, plus Hold. Two buttons can be customized for paging access or intercom. Easily serves as Central Answering Position. Touch-Tone only. #10292X Beige, Desk Set \$350

### The Ultimate 1A KEY Instrument: 30-Button CALL DIRECTOR®

With this command station you can control your entire 1A KEY System. The 30-button Call Director telephone with built-in push buttons provides convenient service for up

to 29 lines from a single station. It gives you the flexibility to increase your line capacity as the need arises. Also gives you Hold plus intercom and paging access. Touch-Tone only.

#10293X Beige, Desk Set \$679

### C. The 4A Speakerphone

Quality sound plus convenience for hands-free, 2-way communication without using handset. Frees you to take notes, interrupt if necessary, move around room, perform other tasks during call, permit several people to simultaneously hear caller's conversation. Instant privacy is available by pressing a switch or picking up a handset. You can also adjust or change the volume.

**A**  
Access up to 5 lines, Intercom or Paging with this 6-Button Telephone.

Move up to this 10-Button Set as your needs grow.

**B**  
Monitor a whole department's telephones with this 20-Button Set.

**C**  
Add stations, upgrade users' capabilities with these multi-button sets for your 1A KEY Telephone System.

## Expand your present System with one or more of these reliable, flexible sets.

From a small business to a large department, the 1A KEY System has traditionally been the way to make several telephone lines available to individual users. Its reliability and simplicity of operation make it worth adding to...and these multi-button sets give you a choice of ways to expand.

Flexibility is a hallmark of 1A KEY. Besides the Hold button, each button on each set can be connected to a Central Office line, a PBX line, or an Intercom circuit, or 1 or 2 buttons can be programmed for direct access to a Paging system. A lamp under each button indicates ringing, in-use or on-hold status. 1A KEY is compatible with manual or dial Intercoms and with many PBX Systems; any number of stations can be used in a single System.

**Prerequisites:** AT&T or other 1A KEY Common Equipment. If these sets are to be used with non-AT&T Common Equipment, please check compatibility with the equipment manufacturer.

### A. Touch-Tone 6-Button Set.

Adding another person to your department? This standard 6-Button Set provides Hold, plus access to up to 5 outside lines, PBX lines, or Intercom lines. Can be used with a large System where access to only a few lines is needed.

#### Desk:

#X10252 (Ivory)	\$138.00
#X10254 (Black)	\$138.00
#X10259 (Beige)	\$138.00

#### Wall:

#X10278 (Beige)	\$138.00
#X10279 (Black)	\$138.00
#X10294 (Ivory)	\$138.00

AT&T Installation (optional) . . . . . \$20.00

### B. Touch-Tone 10-Button Set.

A good way to add more lines to a small System that's bursting at the seams, this multi-button set provides Hold, plus access to up to 9 outside lines, PBX lines, or Intercom lines (one button can be used for Paging access). It's a good way to add to a larger System, too, when you need access to more lines than the 6-Button Set provides. Good, too, for a secretary who covers several phones in a small department.

#### Desk:

#X10256 (Ivory)	\$263.00
#X10257 (Black)	\$263.00
#X10261 (Beige)	\$263.00

#### Wall:

#X10286 (Ivory)	\$263.00
#X10287 (Beige)	\$263.00
#X10288 (Black)	\$263.00

AT&T Installation (optional) . . . . . \$25.00

### C. Touch-Tone 20-Button Desk Set.

For the busy department manager or secretary covering a large department's telephones, this set provides Hold, plus access to up to 19 outside lines, PBX lines, or Intercom lines (including 1 or 2 buttons that can be used for Paging access). Install this set, too, to provide flexibility for future expansion.

#X10292 (Beige)	\$350.00
AT&T Installation (optional)	\$35.00

### Touch-Tone 30-Button Call Director.

(Not Shown) Control your entire 1A KEY System with this powerful command station. Monitor, answer, hold, or call on up to 29 lines; direct access to both Intercom and Paging is also possible.

#X10293 (Beige)	\$350.00
AT&T Installation (recommended)	\$100.00

**Note:** Speakerphone-compatible. For hands-free conversation or conference use, each of these sets is compatible with the 4A Speakerphone (#3120-02WM, page 53). All 1A KEY telephones are refurbished and are covered by AT&T's standard 90-day warranty.

# Sound choice! AT&T Single Line Telephones, for cost-effective service wherever you are.

SINGLE LINE TELEPHONES AND ACCESSORIES

AT&T 2500 Model Single Line Telephones: call them affordable, reliable.

## Behind your System, in the office, or at the factory. Analog phones save steps, save time.

### Voice Terminal compatibility.

The 2500 and 500 Model analog phones offered on these pages are compatible with AT&T Communications Systems: MERLIN® System, MERLIN® Plus System, MERLIN® II System, System 25, 75, 85 and the DIMENSION® System with the exception of the SPIRIT® Communications System. For a quick reference to Voice Terminals offered in this Catalog, see our Voice Terminal Compatibility Matrix (page 3). See the Small/Intermediate Systems Comparison Guide (page 29) to note your System's specific capabilities: line capacity, station capacity, and more.

### A. 2500 Model Touch-Tone Desk Telephone.

This easy-to-use single line phone is a sturdy, reliable performer with the added convenience of Touch-Tone dialing. Ideal wherever a simple dial-up call is needed: the office, front desk, mailroom. Hearing-aid compatible.

**Limitation:** Not compatible with a Speakerphone.

- #3100-1TDB (Black) . . . . . \$55.00
- #3100-1TDI (Ivory) . . . . . \$55.00
- AT&T Installation (optional) . . . . . \$12.00

### Jack-Equipped Touch-Tone Telephone. (Not Shown)

A standard Touch-Tone desk set, equipped with a Headset jack for quick, cost-effective hookup of equipment. Hearing-aid compatible. For compatible Headsets, see page 57.
