Circuit Pack Test Set /**812A**

Test Capability: *Circuit Pack Testing* / **Technology:** *Solid State Circuitry* / **Test Set Features:** *Pass or Fail Indication...Self Testing Capability.*

An extremely useful tool, the 812A PBX Circuit Pack Test Set is intended for in-the-field testing of suspected defective circuit packs. Its simple pass or fail method of testing and trouble-locating procedures, quickly identifies faulty circuit packs. This, in turn, eliminates the costly and time consuming return of good circuit packs for repair.
