# 400 SERIES PUSHBUTTON TELEPHONE

for built-in telephone installations that accent the attractiveness of any decor and give you many valuable functional advantages as well

gives you these features and benefits...

□ **DESIGNED FOR FLUSH MOUNTING OF PUSHBUTTONS AND DIAL**

- Ideal for installation in such locations as desk tops, shelves, or in other items of furniture or equipment — virtually anywhere you can provide a suitable opening.
- Can be installed at any angle from horizontal to practically vertical — versatile, adaptable.

□ **HANDLES FROM 5 UP TO 119 LINES**

- Available in models with 6, 12, 18, 30, 60, 90 and 120 pushbuttons — according to your needs.
- Plug-in keys provide for fast installation and rearrangement — saves time, minimizes inconvenience.

□ **GIVES THE OUTSIDE AND INSIDE LINES YOU NEED**

- You get the right combination of lines for your needs — central office, private branch exchange, full-period talk, tie lines, intercom — whatever you require.
- This combination can be changed quickly and easily as your needs change — flexible, economical.

□ **WITH THESE OPTIONAL FEATURES**

- Plug-in headset is available on all models for "hands-free" clerical operation.
- Conference feature lets you set up an intercom conference just by dialing a

code or pushing a button — cuts need for away-from-desk conferences.

- Pushbutton signaling feature lets you connect with any associates on intercom without dialing.
- Add-on feature lets you add other stations to an outside call — gets calls concluded faster and more efficiently, minimizes possibility of error, cuts need for "call-backs."
- Flash-button feature lets you flash your switchboard attendant when you wish her to come in on line.
- Turn-button feature gives you a transfer or cutoff key to speed call-handling or insure privacy on the line.

□ **AND YOU GET THESE VALUABLE "PLUS" FEATURES**

- Hold feature lets you hold calls without disconnecting, handle several calls at once.
- Illuminated pushbuttons show the status of all lines at all times—whether "busy," "held," or "ringing."
- One person at a central point may answer for all others when they are out, or in conference, or all the time as regular procedure.
- Modern design and choice of decorator colors.

Bell System
