

SETS, TELEPHONE—Continued

The No. 352 is an anti-sidetone, common battery talking, common battery signaling, wall type set for single or party-line service in manual or dial telephone systems.

The outer housing and handset are made of a strong, glossy black plastic which is pleasing in appearance, durable and easily kept clean. The circuit components are fastened to a metal base and all terminals are conveniently available for connecting purposes.

352C-3 Telephone Set
